Students Satisfaction Survey Analysis Report

Session 2017-18

A survey to evaluate the satisfaction of students was conducted on 25 February 2018 for the academic session 2017-18. The students were asked about their satisfaction regarding the syllabus and teaching-learning process. The questions were asked mostly on the quality of syllabus and completion of course. The students were asked to submit their response on a scale of 1 to 5 where 5 being extremely satisfied and 1 being not satisfied at all. About 80 percent of students were extremely satisfied with the quality of teaching and syllabus. About 15 percent of the students have given their as satisfied which indicates their satisfaction is above the average level. Hence the academic performance for the year has been **satisfactory**.
